**John Broermann and Gerhard Schen to introduce
MUSIC DEALERS RESOURCE GROUP, LLC
BOOTH 480 – Austin SUMMER NAMM 2006**

Cincinnati, Ohio June 23, 2006 – John Broermann and Gerhard Schen announced today the formation of Music Dealers Resource Group, LLC. The new company will provide importing and distribution of music products to retail dealers and distributors, as well as product development and management and OEM/Private Label Services. "MDRG" also provides Buying Groups with product development guidance, branding and packaging assistance and consolidation and distribution of their products.

Music Dealers Resource Group, LLC has partnered with Gerhard Schen of Mingde Musik Ltd located in Guangdong, China. Since 1997 Mingde Musik Ltd has been a key provider of musical instruments and accessories manufactured in Southern China and distributed throughout the world to leading music companies.

John Broermann has previously owned and operated retail music stores (1979-1989), and on two separate occasions managed the Davitt & Hanser Accessory Division for HHI Music and has worked as a manufacturer's representative for Buckeye Marketing & McFadden Sales representing products as diverse as SHURE, JBL, COMMUNITY, ARIA, PARKER, GATOR CASES and SOUNDCRAFT.

According to Broermann, "the music industry is in the process of redefining itself and we

want to be a part of these exciting and challenging changes. With our Asian team at Mingde Musik and the "MDRG" USA operation, I believe we are uniquely positioned to identify opportunities and provide profitable solutions for this industry."

Music Dealers Resource Group will primarily focus on high-margin, high-turn products that dealers and wholesalers require every day. This includes stringed instruments, percussion products, cases and bags, stands of all types, orchestral products, cables, tuners and entry-level amplifiers with additional products under development.

"Our strong manufacturing resources and our ability to consolidate goods with our China warehousing operations will enable Music Dealers Resource Group to pass on significant cost savings on quality products. Every dealer, distributor and Buying Group now has the opportunity to source Asian products through a USA based trading company, "says Broermann.

Music Dealers Resource Group will have a selective offering of products at Summer NAMM in Austin July 14-16, Booth 480.
